

Director's Message

It is a great pleasure to me in giving a message for the well being of an Institution which has been established in the name & memory of my beloved Grandfather Late Triveni Sahai Misra, who dedicated his whole life for services of human beings particularly of poor strata.

Being a Doctor, I take pride to appreciate the infrastructure and faculty of T.S.Misra Medical College and Hospital, Lucknow which is comprised of highly experienced medical teachers both from Medical Institutions and Army Medical Core, who have volunteered to serve in our institution unconditionally with full enthusiasm and sincerity. One of our faculty Prof. S.K. Agarwal is Ex-Vice Chancellor of King George's Medical University, Lucknow, who is serving as Principal and Dean. One Consultant Dr. S.S. Srivastava of Pediatrics Department have more than 40 years of experience not only as Doctor but also on Administrative side having retired as Director General of Provincial Medical and Health Services of U.P. Government. The other who is Medical Director of our Institution, has been an eminent Surgeon of Provincial Medical Services in U.P. There are others who retired as classified specialists and advisors in the rank of Army Medical Core.

By having an eminent faculty and very good modern infrastructure, main objective of the institution has been achieved to a great extent which is to impart best medical education and to treat the ailing patients with latest know how on lower cost and to give proper attention on priority to poor patients. I do hope that in near future under guidance of the dynamic personalities, our institution will not only become super specialty PG Institute but will also become as Deemed Medical University.

I do promise on becoming a Specialist Doctor and in the capacity of one of the Directors of the Management Board, I will also serve this institution with best of my capabilities.

I pray Almighty God to shower his blessings to us to achieve our future endeavours.

(Dr. Shubhshree Misra)
Director
