AGENDA ITEMS

1. Review and confirmation of the minutes of the previous Board of Studies meeting.
2. Review and updating of the Postgraduate (MD Internal Medicine) curriculum and assessment criteria.
3. Integration of competency-based medical education (CBME) guidelines for undergraduate (MBBS) medicine curriculum.
4. Standardization of University Professional Examination patterns (Theory & Practical).

5. Review of departmental research projects, postgraduate thesis protocols, and ethical clearances.
6. Planning of inter-departmental academic activities (CMEs, Mortality Meets, and CPCs).
7. Upgrade of departmental infrastructure, e-learning resources, and skills lab equipment.
8. Any other matter with the permission of the Chair.

DISCUSSION AND RESOLUTIONS

Item 1: Confirmation of Previous Minutes

The Member Secretary welcomed all members and presented the minutes of the previous Board of Studies meeting.

Resolution: The minutes of the last meeting were reviewed and confirmed unanimously without any modifications.

Item 2: Postgraduate (MD Internal Medicine) Curriculum Review

The board reviewed the current PG residency curriculum to align it with modern clinical competencies, focusing heavily on cardiology, endocrinology, and critical care postings.

Discussion: The committee discussed Including Intensive Care Unit(ICU) 3 months to enhance critical care exposure. Furthermore, a suggestion was made to include mandatory structured training in basic bedside echocardiography and point-of-care ultrasound (POCUS).

Resolution: It was resolved that the updated residency rotation schedule and the inclusion of hands-on POCUS training be approved for the upcoming academic session, pending final university ratification.

Item 3: Undergraduate (MBBS) Curriculum Integration

The implementation of the Competency-Based Medical Education (CBME) logbooks and formative assessments for final-year students was assessed.

Discussion: The chairperson emphasized the need for more structured, objective structured clinical examinations (OSCE) in the internal assessment pattern to ensure fair evaluation of clinical skills.

Resolution: The board approved the new OSCE-based assessment blueprints for undergraduate clinical postings.

Item 4: Standardization of University Professional Examination Patterns

The board discussed the blueprinting of university question papers and formatting of final practical examinations.

Discussion: To align with national standards, members suggested a uniform distribution of weightage across major systems (Cardiovascular, Central Nervous System, Endocrine, GI, and Respiratory) in the theory papers. For practical exams, a standardized checklist for Long Case and Short Case presentations was proposed to minimize subjective marking bias among external examiners.

Resolution: The proposal for standardized practical marking rubrics was approved and will be forwarded to the Controller of Examinations.

Item 5: Review of Thesis Protocols and Research

The committee evaluated the timeline and status of ongoing postgraduate thesis protocols.

Discussion: The members reviewed compliance with recent institutional ethics committee guidelines. Special emphasis was placed on ensuring timely data collection for randomized control trials and observational studies within the department.

Resolution: The progress reports of the current batches were noted as satisfactory, and deadlines for upcoming thesis submissions were finalized.

Item 6: Inter-Departmental Academic Activities & Continuing Medical Education (CME)

The schedule for upcoming academic events, Clinico-Pathological Conferences (CPCs), and mortality reviews was presented.

Discussion: External experts recommended organizing a series of regional CMEs focusing on recent advances in Endocrinology (specifically diabetes

management guidelines) and Cardiology (heart failure management) over the next two quarters.

Resolution: The department will coordinate with the Pathology and Radiology departments to host monthly CPCs, and a sub-committee was formed to draft the CME schedule.

Item 7: Infrastructure and Skills Lab Upgradation

The board assessed the physical and digital resource requirements of the department.

Discussion: A requirement was voiced for advanced simulation mannequins in the central skills lab for training students in central venous line insertion, lumbar puncture, and endotracheal intubation. Additionally, a request was made to renew department subscriptions to premium medical databases and e-journals.

Resolution: The board strongly recommended the procurement of the requested simulation equipment and approved the list of medical journals to be forwarded to the central library.

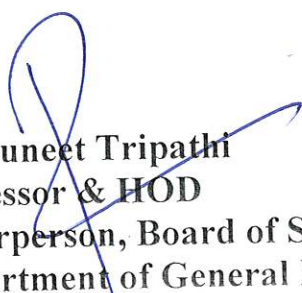

Adjournment

The meeting concluded at 01:30 PM with a vote of thanks to the Chair and all external experts for their valuable inputs.

BOARD OF STUDIES MEETING

With reference to letter no. TSMCH/Admin/Notice/2026-1335 and Dated: - 12/05/2026, a board of studies was constituted in the department of **Psychiatry**, TSMCH. Subsequently, a board of studies meeting was carried out in the department on 16/05/26.

Following faculties were a part of the meeting.

Chairperson:	Dr. Bikashita Deka (Assistant Professor, TSM)
Member:	Dr. Abhishek Gupta (Assistant Professor, TSM)
Member:	Dr. Snigdha Awasthi (Senior Resident, TSM)
Co-opted member:	Dr. Bhawna Kapoor (Professor, TSM)
Expert member:	Dr. Parul Prasad (Associate Professor, CIMS)

The following agendas were discussed as part of the meeting:

1. The proposal to introduce a dedicated psychiatric ward for in-patients with a dedicated psychiatric nursing staff and security so that we can admit patients with major psychiatric illness.
2. The proposal to start new PG courses was discussed keeping in mind the increased footfall in OPD as well as IPD settings.
3. Change in curriculum and method of assessment in MBBS course as per revised Competency Based Medical Education (CBME) Curriculum dated 12 September 2024 was discussed and Teaching schedule with the topics re-evaluated. More emphasis was given to Self Directed Learning in order to cover certain competencies better. Case scenario based questions and Role Plays were integrated as a part of assessment and teaching schedule.
4. As a part of internship development, regular classes and case demonstration sensitizing the interns about psychiatric emergencies and their basic management is being carried out in the department so that they are equipped with the basic knowledge to handle psychiatric emergencies in the periphery. Also, they are assessed at the end of the posting via Viva/MCQ or poster making.

5. It was suggested that the 4 week elective posting would be made a ground to inculcate the values of AETCOM into the students and the project of the elective posting is assessed keeping in mind the soft skills as mentioned in the CBME curriculum.

Copy for information to:
